June 2024

France

New tool to automatically notify certain residence permit holders of upcoming permit expiry

Executive summary

In May 2024, the Direction Générale des Etrangers launched a new online tool called PERSée, which notifies eligible residence permit holders before their permits are due to expire.

Key developments

The new tool, which is now operational, sends emails and SMSs to residence permit holders who have already used the ANEF (Digital Administration for Foreigners in France) platform four months, two months and one week, respectively, before their permit's expiry. The tool is designed to support employees with preventing interruptions in their work and stay authorization and avoiding a penalty (of EUR 180) due to not applying to renew their permit on time.

Impact on employers

Employers may inform employees of this new tool to mitigate business disruptions and prevent expenses associated with not renewing their permits on time.

Key steps

EY will continue to monitor these developments. Should you have any questions, we encourage you to contact one of our immigration professionals.
