- This document is intended to provide an overview of e-invoicing developments around the world. It provides an overview of jurisdictions where e-invoicing regimes have been implemented or announced to be implemented.
- The information is updated on a periodic basis to include the latest developments, but it is important to note that the information provided is subject to change. This material has been prepared for general information purposes only and is not intended to be relied upon for penalty protection, for assessing any specific fact patterns, or for any other purpose except for obtaining general familiarity with the subject matter thereof.
- To check for new developments or if you have questions regarding the specific items contained herein, please contact your EY engagement team or the EY professionals included in this document.

New development updates in this edition of the tracker

Amendments have been made to Bolivia, Bulgaria, France, Greece and Israel in this edition.

Status overview

E-invoicing implementation and upcoming developments

Jurisdiction	Business-to-Government (B2G)	Business-to-Business (B2B)	Business-to-Consumer (B2C)	Upcoming years (Horizon scanning)	Jurisdiction specific details
Albania	Mandatory – 2021	Mandatory – 2021	Mandatory – 2021	Not applicable	
Algeria	Allowed but not mandatory	Allowed but not mandatory	Allowed but not mandatory	Not applicable	
Argentina	Mandatory – 2019	Mandatory – 2019	Mandatory – 2019	Not applicable	
Armenia	Mandatory – 2016	Mandatory – 2016	Allowed but not mandatory	Not applicable	Mandatory e-invoicing for B2G and B2B transactions has been in place since 2016.
Aruba	Allowed but not mandatory	Allowed but not mandatory	Allowed but not mandatory	Not applicable	
Australia	Allowed but not mandatory	Allowed but not mandatory	Not applicable	Yes – 2027	There is a current mandate effective from 1 July 2022 for Commonwealth Government agencies to be ready to receive e-invoices. Mandatory B2G e-invoicing is expected to be implemented next (possibly 2027), followed by a B2B mandate; however, dates on timing of implementation have not yet been confirmed by the Australian Taxation Office. There is currently no expectation of a B2C mandate. The Peppol Authority has provided guidance to government agencies to transition to e-invoicing and to increase the use of e-invoicing.
Austria	Mandatory – 2014	Allowed but not mandatory	Allowed but not mandatory	Not applicable	
Azerbaijan	Mandatory – 2017	Mandatory – 2017	Not applicable	Not applicable	E-invoicing is not applicable to B2C transactions. Only new generation real-time cash registers and cash receipts are required to be issued to non-registered individuals.

Bahrain	Not applicable	Not applicable	Not applicable	Yes – 2027	The National Bureau for Revenue is expected to publish e-invoicing legislation, with implementation anticipated in 2027. Timelines remain subject to official confirmation and publication of the legislation.
Bangladesh	Not applicable	Not applicable	Not applicable	Not applicable	
Barbados	Not applicable	Not applicable	Not applicable	Not applicable	
Belgium	Mandatory – 2022	Mandatory – 2026	Allowed but not mandatory	Not applicable	E-invoicing is mandatory for VAT-registered Belgium-established taxpayers for B2B transactions as of 1 January 2026, with a three-month tolerance period applied from that date, allowing businesses to transition to mandatory e-invoicing without penalties for certain violations. This tolerance period ended on 31 March 2026, and penalties may now apply in cases of noncompliance.
Bolivia	Mandatory – 2021	Mandatory – 2021	Mandatory – 2021	Not applicable	The mandatory e-invoicing requirements have been rolled out in a phased manner for different taxpayer groups. On 30 September 2026, the National Tax Service (SIN) issued RND No. 102600000038 repealing the resolutions mandating the adoption of e-invoicing for taxpayer groups nine through twelve. Any future e-invoicing requirements applicable to affected VAT taxpayers will be determined by SIN.
Bonaire, Sint Eustatius and Saba (BES Islands)	Allowed but not mandatory	Allowed but not mandatory	Allowed but not mandatory	Not applicable

Jurisdiction	Business-to-Government (B2G)	Business-to-Business (B2B)	Business-to-Consumer (B2C)	Upcoming years (Horizon scanning)	Jurisdiction specific details
Bosnia and Herzegovina	Allowed but not mandatory	Allowed but not mandatory	Allowed but not mandatory	Not applicable	The Federation of Bosnia and Herzegovina (FBiH) has enacted a new Law on Fiscalization of Transactions (Official Gazette No. 9/26, published 4 February 2026; in force from 12 February 2026). The law introduces mandatory e-invoicing for B2B transactions and certain B2G transactions. The Ministry of Finance must issue detailed implementation by-laws and the technical plan within 180 days, with the fiscalization measures applying 18 months after those by-laws are adopted. Further updates are awaited.
Brazil	Mandatory – 2005, 2026	Mandatory – 2005, 2026	Mandatory – 2005, 2026	Yes – 2026, 2027	E-invoices for services (NFS-e) have been implemented nationwide starting in January 2026 as part of the Tax Reform. Joint Act RFB/CGIBS No. 4/2026 established the implementation schedule for electronic tax documents (DF-e) under the CBS (Contribution on Goods and Services) and IBS (Tax on Goods and Services) tax reform. Mandatory issuance requirements will be phased in by document type between August 2026 and January 2027. The authorities also announced flexibility regarding certain CBS and IBS information requirements in DF-e validation rules. From 1 November 2026, micro and small enterprises (ME/EPP) under the Simples Nacional regime must issue the national NFS-e for applicable services exclusively via the National NFS-e Issuer (web portal or API).

Bulgaria	Allowed but not mandatory	Not applicable	Not applicable	Yes – 2028	For B2G, it is mandatory for state bodies to accept e-invoices from 2019. The Ministry of Finance published a draft VAT law on 23 September 2026 proposing mandatory domestic B2B and B2G e-invoicing, real-time reporting, and validation through the National Information System for Structured Electronic Invoicing and Digital Reporting from 1 January 2028. The proposal remains subject to legislative approval. There is no general B2C e-invoicing obligation proposed. However, under the draft law, any invoice issued voluntarily (at the supplier's or customer's request) for a domestic supply to a recipient established in Bulgaria should be issued as a structured e-invoice from 1 January 2028.
Cambodia	Mandatory – 2025	Allowed but not mandatory	Not applicable	Yes – 2027–28	B2G e-invoicing became mandatory for national-level government entities in 2025 and has now expanded to cover a total of 28 ministries and government bodies by June 2026. The Ministry of Economy and Finance (MEF) has announced plans to make B2B e-invoicing mandatory for a defined group of taxpayers, starting with a study in 2025 to expand e-invoicing to large taxpayers. There is a potential implementation of B2B e-invoicing in 2027 and 2028, targeting large and medium-sized taxpayers. The MEF has announced plans to make B2C e-invoicing voluntary by 2027-28.
Canada	Allowed but not mandatory	Allowed but not mandatory	Allowed but not mandatory	Not applicable	
Chile	Mandatory – 2018	Mandatory – 2014	Mandatory – 2021	Not applicable

China Mainland	Allowed but not mandatory	Allowed but not mandatory	Allowed but not mandatory	Not applicable	E-invoicing has been implemented in China Mainland for normal VAT invoices (2015), special VAT invoices (2021), and fully digitalized e-invoices nationwide (1 December 2024). Special VAT e-Fapiao apply to B2B and General VAT e-Fapiao to B2C. However, e-invoicing remains voluntary, with no legal mandate in effect.
Colombia	Mandatory – 2019	Mandatory – 2019	Mandatory – 2019	Not applicable	
Costa Rica	Mandatory – 2018	Mandatory – 2018	Mandatory – 2018	Not applicable	
Croatia	Mandatory – 2019, 2026	Mandatory – 2026	Allowed but not mandatory	Yes – 2027	As per the Law on Fiscalization published on 13 June 2025, mandatory e-invoicing applies to all domestic B2B transactions as of 1 January 2026 for VAT-registered businesses. Non-VAT registered businesses must accept e-invoices as of this date. Additionally, B2G, B2B and B2C transactions are subject to fiscalization obligations as of 1 January 2026. Non-VAT registered businesses will be required to issue e-invoices starting 1 January 2027.
Curaçao	Allowed but not mandatory	Allowed but not mandatory	Allowed but not mandatory	Not applicable	Public authorities are required to receive and process e-invoices for public procurement, but it is not yet mandatory for suppliers to issue e-invoices in B2G transactions.
Cyprus	Mandatory – 2019	Allowed but not mandatory	Allowed but not mandatory	Not applicable

Czech Republic	Allowed but not mandatory	Allowed but not mandatory	Allowed but not mandatory	Not applicable	
Denmark	Mandatory – 2005	Allowed but not mandatory	Allowed but not mandatory	Not applicable	The Danish Bookkeeping Act requires most companies to use a digital bookkeeping system. Such systems must have the technical capability to send and receive e-invoices in OIOUBL and Peppol BIS formats; however, the use of e-invoicing is not yet mandatory.
Dominican Republic	Mandatory – 2024	Mandatory – 2024	Mandatory – 2024	Yes – 2026	E-invoicing is being implemented in a phased approach across B2G, B2B and B2C. For large national taxpayers, mandatory e-invoicing was implemented in 2024, followed by large local and medium taxpayers from 15 November 2025. The obligation for small, micro and unclassified taxpayers, originally set for 15 May 2026, has been extended to November 2026 following a six-month administrative extension granted by the tax authority.
Ecuador	Mandatory – 2014	Mandatory – 2014	Mandatory – 2014	Not applicable	E-invoicing is mandatory across B2G, B2B and B2C transactions for all obligated taxpayers, while “Negocios Populares” taxpayers within the RIMPE regime (simplified Régimen Simplificado para Emprendedores y Negocios Populares) may opt in voluntarily. In 2014, a phased rollout of e-invoicing began for certain companies and public entities, bringing all remaining obligated taxpayers into scope by 29 November 2022.
Egypt	Mandatory – 2023	Mandatory – 2020	Mandatory – 2022	Not applicable

Jurisdiction	Business-to-Government (B2G)	Business-to-Business (B2B)	Business-to-Consumer (B2C)	Upcoming years (Horizon scanning)	Jurisdiction specific details
Estonia	Mandatory – 2019	Allowed but not mandatory	Allowed but not mandatory	Not applicable	E-invoicing has been mandatory for B2G transactions in Estonia since 2019. However, an amendment effective 1 July 2025 adds the “buyer’s choice” principle. This amendment requires sellers to issue e-invoices upon request to any entity registered in the Commercial Register as an e-invoice recipient, including public sector entities. For B2B transactions, effective from 1 July 2025, e-invoicing is considered optional mandatory and is only applicable upon a buyer's request, provided that the buyer is an entity registered as an e-invoice recipient.
European Union	-	-	-	Yes – 2030	The European Union’s (EU) VAT in the Digital Age (ViDA) package was formally adopted on 11 March 2025 and introduces a phased modernization of the EU VAT system through mandatory e-invoicing, digital reporting requirements, and other VAT simplification measures. Under the new framework, mandatory structured e-invoicing and near real-time digital reporting for intra-EU B2B transactions will apply from 1 July 2030. Cross-border e-invoices must generally be issued within 10 days of the taxable event, with suppliers required to submit transaction data electronically to tax authorities within the prescribed reporting timelines. Member States with existing digital reporting systems may continue operating them during the transition period but must align with the EU framework by 1 January 2035, when full harmonization of digital reporting requirements is expected across the EU.

El Salvador	Mandatory – 2023	Mandatory – 2023	Mandatory – 2023	Not applicable	Since July 2023, e-invoicing has been mandatory for certain taxable persons for B2G, B2B and B2C supplies under Decree No. 487. It applies only to those selected and notified by the tax authority.
Finland	Allowed but not mandatory	Allowed but not mandatory	Allowed but not mandatory	Yes – 2030	Implementing VAT in the Digital Age (ViDA) for cross-border transactions by 2030. For B2G supplies, e-invoicing is not mandatory by law but allowed. However, according to the applicable law, the Finnish state has the right to demand that it be invoiced only with e-invoices. Furthermore, the Finnish state has announced that it will only accept e-invoices that are of European standard. Thus, in practice, e-invoicing for B2G supplies is mandatory. For B2B, the buyer has the right to require e-invoices from its vendors (EUR 10 000 annual turnover threshold applies). Thus, in practice, e-invoicing for B2B supplies is mandatory if the buyer demands an e-invoice.
France	Mandatory – 2020	Mandatory – 2026	Mandatory – 2026	Yes – 2027	All VAT-registered persons established in France are required to be able to receive e-invoices from 1 September 2026. Large and mid-sized established VAT taxpayers and VAT group members are required to issue e-invoices and submit e-reporting data from the same date. All other VAT-registered persons established in France are required to begin issuing e-invoices and transmitting e-reporting data from 1 September 2027. Non-established but VAT-registered entities in France are not required to issue B2B e-invoices; however, they are subject to e-reporting obligations (for a limited number of transactions).
Germany	Mandatory – 2020	Mandatory – 2025	Allowed but not mandatory	Yes – 2027, 2028	Transitional rules apply from January 2025. Extended scope for mandatory B2B e-invoicing in 2027 and 2028, based on turnover.

Ghana	Mandatory – 2022	Mandatory – 2022	Mandatory – 2024	Not applicable	The e-invoicing system was rolled out in a phased approach, starting in 2022. Currently, all taxable persons are mandated to comply with the e-invoicing requirements established by the Ghana Revenue Authority.
Greece	Mandatory – 2023	Mandatory – 2026	Allowed but not mandatory	Not applicable	The mandatory B2B e-invoicing implementation was carried out in two phases: Period A from 2 March 2026 for large enterprises with gross revenues exceeding €1,000,000 for the 2023 tax year, and Period B from 1 October 2026 for all other businesses.
Guatemala	Mandatory – 2021	Mandatory – 2021	Mandatory – 2021	Not applicable	E-invoicing is regulated under the Factura Electrónica en Línea (FEL) system, established by SAT Board Agreement No. 13-2018. Mandatory adoption began on 1 July 2021 for newly registered taxpayers, extended in 2022 to those under the general VAT regime, and became mandatory for all VAT-registered taxpayers from 1 July 2023.
Guyana	Allowed but not mandatory	Allowed but not mandatory	Allowed but not mandatory	Not applicable	
Honduras	Allowed but not mandatory	Allowed but not mandatory	Allowed but not mandatory	Not applicable	Taxpayers can opt to issue e-invoices provided they have followed a defined process to receive prior approval. In practice, e-invoicing is not commonly used.
Hungary	Mandatory – 2025, 2026	Mandatory – 2025, 2026	Allowed but not mandatory	Not applicable	Effective 1 July 2025, electricity and natural gas traders are required to issue e-invoices for B2G and B2B transactions. In addition, Government Decree No. 159/2025 introduced a requirement for water utility service providers to issue e-invoices to non-residential users for B2G and B2B transactions as of 1 January 2026.

India	Mandatory – 2020	Mandatory – 2020	Not applicable	Not applicable	
Indonesia	Mandatory – 2014	Mandatory – 2014	Mandatory – 2014	Not applicable	E-invoicing became mandatory in three stages: Certain taxpayers designated by the Indonesian tax authority were required to issue e-Faktur Pajak starting from 1 April 2014. Taxpayers located in Java and Bali were mandated to issue e-Faktur Pajak from 1 July 2015, and remaining taxpayers required to issue e-Faktur Pajak since 1 July 2016.
Ireland	Mandatory – 2019	Allowed but not mandatory	Allowed but not mandatory	Yes – 2028, 2029, 2030	The tax authority announced a phased plan for mandatory B2B e-invoicing and real-time VAT reporting: Phase 1 (November 2028) targets VAT-registered large corporates; Phase 2 (November 2029) covers intra-EU VAT-registered businesses; Phase 3 (July 2030) applies to all intra-EU transactions. However, from 1 November 2028, all businesses must be able to receive structured e-invoices. Public sector bodies have been legally required to receive and process structured e invoices since 2019 for Central Government and 2020 for Sub Central Government.
Israel	Allowed but not mandatory	Mandatory – 2024	Allowed but not mandatory	Not applicable	For B2B transactions, Israel's e-invoicing model requires obtaining an allocation number for invoices above NIS 20,000 in 2025, NIS 10,000 from January 2026, and NIS 5,000 from June 2026 for the purpose of deducting input VAT. A buyer may request an allocation number at any time.

Netherlands	Mandatory – 2017	Allowed but not mandatory	Allowed but not mandatory	Yes – 2030, 2031	The government announced its intention to introduce mandatory domestic B2B e-invoicing from 1 July 2030 and e-reporting from 1 July 2031, extending the EU ViDA framework to domestic transactions. The legislative proposal will be submitted to Parliament before the 2027 summer recess, with completion scheduled before 1 July 2028.
New Zealand	Allowed but not mandatory	Allowed but not mandatory	Allowed but not mandatory	Yes – 2027	Rule 44 of government procurement rules requires agencies receiving or sending over 2,000 domestic trade invoices annually to be e-invoice capable as of 1 January 2026. Agencies must ensure that large suppliers submit e-invoices by 1 January 2027.
Nicaragua	Not allowed	Not allowed	Not allowed	Not applicable	Taxpayers may submit a formal authorization request to the national tax authority in order to issue invoices using approved invoicing software. Once the authorization is granted, the taxpayer is permitted to use their own computerized billing system, but this is not an e-invoicing system.
Nigeria	Mandatory – 2025	Mandatory – 2025	Mandatory – 2025	Yes – 2026, 2027, 2028	Effective 1 November 2025, all large taxpayers with an annual turnover of five billion Nigerian naira (N5 billion) or more are required to register and onboard to the e-invoicing platform, with enforcement from April-June 2026. The Nigeria Revenue Service (NRS) is implementing the phased rollout in structured stages: stakeholder engagement, pilot rollout, go live, post go live review, and compliance enforcement. The rollout is as follows: medium taxpayers (N1 billion-N5 billion) go-live on 1 July 2026, with enforcement from January-March 2027, while emerging taxpayers (below N1 billion) go-live on 1 July 2027, with enforcement from January-March 2028. Timelines are indicative and subject to adjustments by the NRS.

Pakistan	Mandatory – 2025, 2026	Mandatory – 2025, 2026	Mandatory – 2025, 2026	Not applicable	The Federal Board of Revenue (FBR) implemented e-invoicing for taxable supplies of goods in a phased rollout between 1 November 2025 and 31 December 2025, covering various categories of registered taxpayers. Pakistan's e-invoicing and digital reporting framework operates at both the federal and provincial levels, with goods regulated by the FBR and services administered by the relevant provincial tax authorities. Separate integration and e-invoicing requirements for specified taxable service providers operating in the Islamabad Capital Territory (ICT) were introduced under Sales Tax General Order No. 05 of 2026 in May 2026.
Panama	Mandatory – 2022	Mandatory – 2022	Mandatory – 2022	Not applicable	The e-invoicing system (SFEP) has been available for voluntary use since 1 June 2021. Mandatory B2G e-invoicing was first introduced as of 30 July 2022, when public entities were required to accept only SFEP e-invoices for the procurement of goods and services. B2B e-invoicing became mandatory from 1 January 2022 for newly registered taxpayers (new RUCs), with phased expansions thereafter. B2C e-invoicing follows the same go-live dates as the issuer's B2B obligation, with no standalone B2C mandate.
Paraguay	Mandatory – 2022	Mandatory – 2022	Mandatory – 2022	Yes – 2026, 2027	Under Resolution DNIT No. 52 (2026), 3,000 taxpayers (Groups 19-24) are required to adopt e-invoicing in phases from 1 June 2026 to 1 September 2027. From the respective start date, the use of preprinted or self-printed invoices will no longer be permitted.

Philippines	-	-	-	-	The Philippine e-invoicing framework is taxpayer category-based rather than transaction type-based. Under RR No. 26-2025, mandatory e-invoicing by 31 December 2026 applies to specified taxpayer groups, including e-commerce taxpayers, taxpayers under the Large Taxpayers Service (LTS), taxpayers classified as Large Taxpayers under the Ease of Paying Taxes Act (EOPT), and taxpayers using Computerized Accounting Systems (CAS), Computerized Books of Accounts (CBA) with e-invoicing, or other invoicing software. Exporters, Registered Business Enterprises (RBEs), Point-of-Sale (POS) users, and other taxpayer categories designated by the Bureau of Internal Revenue (BIR) will be brought within the scope of mandatory e-invoicing and electronic sales reporting through future regulations once the necessary BIR system infrastructure is established.
Poland	Mandatory – 2019	Mandatory – 2026	Allowed but not mandatory	Yes – 2027	Obligatory for B2B from 1 February or 1 April 2026 depending on entity size and allowed (but not mandatory) for B2C in 2026. E-invoicing requirements extend to micro-taxpayers with monthly sales below PLN 10,000 from 1 January 2027.

E-invoicing implementation and upcoming developments

Jurisdiction	Business-to-Government (B2G)	Business-to-Business (B2B)	Business-to-Consumer (B2C)	Upcoming years (Horizon scanning)	Jurisdiction specific details
Portugal	Mandatory – 2021	Allowed but not mandatory	Allowed but not mandatory	Yes – 2027	The scope of B2G e-invoicing will be extended to include micro, small and medium enterprises (MSMEs) as of 31 December 2026, with mandatory application from 1 January 2027. For B2B transactions, the earliest potential implementation of mandatory e-invoicing is expected to align with EU ViDA timelines, subject to future legislative developments. Under the Portuguese State Budget Law for 2026, PDF invoices need to include a qualified electronic signature or a qualified electronic seal (QES), or to be issued via Electronic Data Interchange (EDI), as of 1 January 2027.
Qatar	Not applicable	Not applicable	Not applicable	Yes – 2027	The e-invoicing program is expected to cover B2G, B2B and B2C transactions, with implementation anticipated from 1 January 2027, although no official or legally binding dates have yet been confirmed.
Republic of Korea	Mandatory – 2011	Mandatory – 2011	Not applicable	Not applicable	
Romania	Mandatory – 2022	Mandatory – 2024	Mandatory – 2025	Not applicable	B2C e-reporting has been mandatory since 1 January 2025. Law No. 88/2026 eliminated the obligation for certain taxpayers (including natural persons identified by a personal identification number (CNP), individual farmers, and foreign cultural institutes) to use RO e-Factura (e-invoicing) from June 2026, allowing them to opt in voluntarily or request removal from the register.
Rwanda	Mandatory – 2021	Mandatory – 2021	Mandatory – 2021	Not applicable	E-invoicing is mandatory for all B2B, B2C and B2G transactions using certified Electronic Invoicing Systems or Electronic Billing Machines since 1 January 2021. Non-registered suppliers cannot issue e-invoices.

Jurisdiction	Business-to-Government (B2G)	Business-to-Business (B2B)	Business-to-Consumer (B2C)	Upcoming years (Horizon scanning)	Jurisdiction specific details
Slovakia	Allowed but not mandatory	Allowed but not mandatory	Allowed but not mandatory	Yes – 2027–30	The phased implementation of VAT e-invoicing includes voluntary participation from May 2026, intended primarily for testing and early adoption. From 1 January 2027, mandatory e-invoicing requirements will apply to domestic B2B and B2G transactions where the supplier is a Slovak-established, VAT-registered business and the customer is a Slovak-established taxable person or a Slovak non-taxable legal person. Cross-border e-invoicing is planned for 2030. B2C transactions remains excluded from the e-invoicing mandate.
South Africa	Not applicable	Not applicable	Not applicable	Not applicable	
Spain	Mandatory – 2015	Allowed but not mandatory	Allowed but not mandatory	Yes – 2027, 2028	On 24 March 2026, the Royal Decree mandating B2B e-invoicing was approved under Law 18/2022 (the Create and Growth Law). The requirements will enter into force on a phased basis, 12 and 24 months respectively, calculated from the publication of the forthcoming Ministerial Order, with larger taxpayers becoming subject to the rules earlier than the smaller businesses and professionals.
Sri Lanka	Allowed but not mandatory	Allowed but not mandatory	Allowed but not mandatory	Yes – 2026	Budget 2026 proposed the phased implementation of a national e-invoicing system using Application Programming Interface (API) integration between taxpayers' Enterprise Resource Planning (ERP) systems and the Revenue Administration Management Information System (RAMIS), with the system expected to be implemented in 2026. The rollout is expected to begin with export-oriented enterprises and selected pilot companies, expand to all VAT-registered taxpayers, and later integrate with point-of-sale (POS) systems for real-time transaction reporting.
